## Re: Almost 60% of neighbors support The Other Side Village - A Field Effort Result

**Objectives:** To educate about the village and take feedback from the community  
To gather data and information about level of support and main concerns

Between October 9th 2021 and October 12th 2021, Landslide Political conducted a door-to-door educational effort with tentative neighbors of The Other Side Village to gather feedback and to answer common misconceptions. Our team of canvassers knocked on over 3400 doors near the tentative location for The Other Side Village. Below are the results of this effort.

# 59%

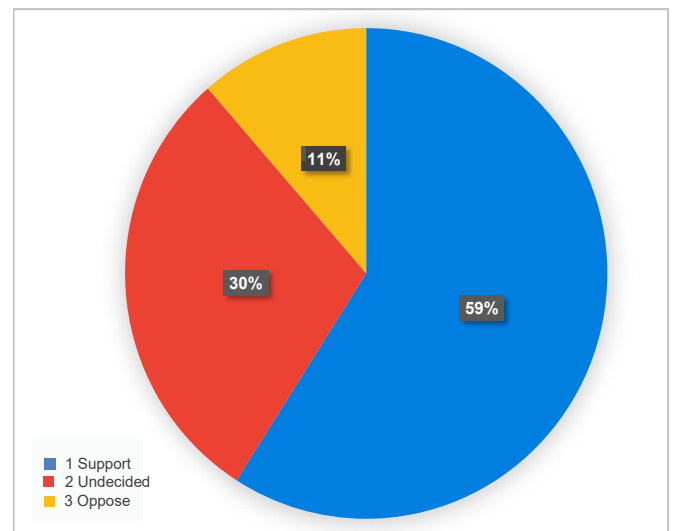

Or 497 neighbors expressed support for the project

# 30%

Or 249 neighbors didn't know enough about the project to formulate an opinion

# 11%

Or 96 neighbors didn't support the project

Support for The Other Side Village

Almost **60%** of neighbors in the west side of Salt Lake City support the creation of The Other Side Village in their area.

While the results are conclusive, the neighbors of the west side of Salt Lake City support the creation of this tiny home village. We believe there is a lot of work to do to educate and answer common misconceptions about this project. If you have questions about this effort and its results, please contact us directly.
